**The SLD process is complicated.
Let's tackle it together.**

Come learn about how a student qualifies for special education under SLD and plan for their unique needs.

We will work together through the eligibility process and planning for a student's needs based on specific case-studies. Elementary and secondary examples will be reviewed.

We will also discuss different points to consider as teams complete an initial eligibility versus reevaluation and we will identify the thread of information from Eligibility to the IEP.
